

## Fly Away

Mina

I thought the rain was gonna wash away your smell  
I had it even inside my soul  
Nothing is gonna change even once that has gone  
I know nothing can be undone

Cries are way out of place  
and by the way, I forgot you yesterday  
words are said out of space  
cause I will never learn my mistakes

And I will fly away  
I will take you to the stars at night  
fly away into the sky

And I will fly away  
I will take you to the stars at night  
fly away into the sky

I think I am much better without you by my side  
I have started again to smile

My mind is clearer now  
and thanks to her I have forgotten you somehow  
words are said out of place  
and I will always learn from my mistakes

And I will fly away  
I will take you to the stars at night  
fly away into the sky

And I will fly away  
I will take you to the stars at night  
fly away into the sky

I will fly away  
I will take you to the stars at night  
fly away into the sky
