

## Rise Once Again

### Mind Assault

We will rise. We will conquer  
No one can bring us down anymore.  
Raise our fists in victory, the pain a distant memory  
This brotherhood will last forevermore.  
Rise once again  
From the ashes of our past  
New found power's in us. The enemy has been crushed.  
Beaten down but came back forevermore.  
Rise once again  
From the ashes of our past  
We will never be what you want us to be, we will never  
change.  
Freedom's ours, times have changed.  
No chain to hold us back anymore...  
...Rise once again
