

Band-Aid

Mindless Behavior

But I could be your band-aid
I could be
I could be

Gave it to you all
'Cause in life and in love you believe it's all or nothing at all
So you fight through the tears but he's never there
Catchin' you fall
Catchin' you fall

Put your heart on the line 'cause you didn't know
That the love that you found would be fool's gold
You deserve better girl
I could see that you're hurting girl

I can't begin to understand the way you feel
It might just take a little time for your heart to heal
And girl I know that I can't take away your pain
But I could be your band-aid, hey
But I could be your band-aid, hey

Straight to the heart
Like medicine I'mma be right here
Erasing your scars
I could cover you from ?
protection
You'll never hurt again
Never hurt again

Put your heart on the line 'cause you didn't know
That the love that you found would be fool's gold
You deserve better girl
I could see that you're hurting girl

I can't begin to understand the way you feel
It might just take a little time for your heart to heal
And girl I know that I can't take away your pain
But I could be your band-aid, hey
But I could be your band-aid, hey

It's Double R!
Tell me where it hurts love
Let me dry your little tears, clean your wounds up yeah
Baby this is meant to be
It's just a shame it took pain to lead you to me

I took the pressure off
And relieved the pain
Baby wounds and all
I'll make 'em fade away
Away

I can begin to understand the way you feel (The way you feel yeah)
It might just take a little time for your heart to heal, yeah
And girl I know that I can't take away your pain
But I could be your band-aid, hey
But I could be your band-aid, hey

But I could be your band-aid, hey

I'm here for you baby

But I could be your band-aid, hey, yeah
I could be your band-aid
