

Hey girl. You now rockin' with MB girl! You didn't know!

Wish I could drive a whip, and take you 'round the city
Cruise along the street, and pick up somethin' pretty for you
Wish I could ball out in the club in the nightlife you heard me
But that might be just a little too early
Instead of shopping malls, take you to the Tahj Mahal
Maybe the islands, only the finest for you
I know I'm young but I ain't even tryin' to fool ya
What I'm sayin is that girl I got a-

Future (future), and when I'm older Imma know just what to do with ya
'Cause the future's lookin' bright so come into the light
And everything that's wrong I'll make it right, 'cause girl
I got a future, girl I got a future.
Girl you know I got a future, future, future, girl I got a future.

Wish I could meet your mom and show her that I'm decent
Wish that I could tell you that I love you girl I mean it I do
Wish I could kick it with your friends on a regular basis
But we're from two different worlds, I gotta face it
I'm still a boy, and, you need a real man
I'm gonna get there, yeah I know I sure can
I know I'm young but I ain't even tryin' to fool you
What I'm saying is that girl I got a-

Future (future), and when I'm older Imma know just what to do with ya
'Cause the future's lookin' bright so come into the light
And everything that's wrong I'll make it right, 'cause girl
I got a future, girl I got a future.
Girl you know I got a future, future, future, girl I got a future.

One day, I'll be older and wiser yeah
One day, I'll be somebody's provider yeah
One day, I'm gonna be able to do,
All of those little things I been singing to you
One day, I'll be ballin', drivin 'stead of walkin'
Take you where you want and take you shopping in the mall and
Whoo!
I know I'm young but I ain't even tryin' to fool ya
What I'm sayin' is that girl I got a-

Future (future), and when I'm older Imma know just what to do with ya
'Cause the future's lookin' bright so come into the light
And everything that's wrong I'll make it right, 'cause girl
I got a future, girl I got a future.
Girl you know I got a future, future, future, girl I got a future.

I got a future, girl, (3x)
I got a future! Girl! (Let's get it)

(I got a future!
And when I'm older Imma know just what to do with ya!
'Cuz the future's lookin' bright so come into the light and everything that's
wrong I'll make it right,
Cuz girl I got a future)
