

## Missing You

## Mindless Behavior

Missing you  
Missing you  
Aye, Roc  
Hey, what up, Prod?  
She won't even talk to me  
Just give her some time  
But I didn't even do anything wrong

I can't get through  
No matter how many times I hit you  
You just pick up the phone  
Say my name and let it go (let it go)  
You won't reply  
See me in your log about a hundred times  
How long you gonna let this go on?

I'm just gon' keep on calling you, texting you  
Blowing you up on your AIM,  
No, I don't give up easily  
Go ahead and keep the deleting in me  
From your three G  
Imma be all in your brain  
So you wanna play games, that's alright  
Girl, I got something to say  
Don't hang up in my face  
'Cause you're too stubborn to let it go  
If that's how you wanna play  
Keep pushing me away  
Make no mistake,  
Girl, Imma keep on missing you

I'm tryna get to you but if I can't get through  
Ain't nothing I can do but keep on missing you  
Do what you gotta do but if I can't get through  
Ain't nothing I can do but keep on missing you

Yell at me  
Tell me tell me all of my name  
Just pick up the phone  
I'm not gonna leave you alone  
Don't be mean, how many times do I gotta say sorry?  
Stay mad if you want,  
This just me your love is strong

I'm just gon' keep on calling you, texting you  
Blowing you up on your AIM,  
No, I don't give up easily  
Go ahead and keep the deleting in me  
From your three G  
Imma be all in your brain  
So you wanna play games, that's alright  
Girl I got the something to say  
Don't hang up in my face  
'Cause you're too stubborn to let it go  
If that's how you wanna play  
Keep pushing me away  
Make no mistake,

Girl, Imma keep on missing you

I'm tryna get to you but if I can't get through  
Ain't nothing I can do but keep on missing you  
Do what you gotta do but if I can't get through  
Ain't nothing I can do but keep on missing you

Baby, forgive me  
Trust me, I swear you ain't miss nothing at that party  
That girl didn't mean a thing  
The only girl I want is you

Girl, I got something to say,  
Don't hang up in my face  
'Cause you're too stubborn to let it go  
If that's how you wanna play  
Keep pushing me away

Missing you, missing you, missing you  
Forgive me, trust me  
Missing you, missing you, missing you  
Forgive me, trust me

I'm sorry, Brianna.
