

# My Girl

## Mindless Behavior

Dang we text each other a lot

Eh, my girl, my girl she loves me  
She hit me all the time she be texting me  
Eh, my girl, my girl she loves me  
She hit me all the time

When I say hey then you say what's up?  
And I'll be like baby do you miss me?  
When you say yes then I say ditto  
And you can hit me back with the left hand symbol number three

I got a clue how you feel for me  
One four three a smiley with a wink  
That's how you feel baby that's what's up  
A hundred forty characters is more than enough

Eh, my girl, my girl she loves me  
I know I'm on her mind even when we don't speak  
See my girl, my girl she loves me  
She hit me all the time my phone be ringing off the hook like, yeah  
She hit me all the time my phone be ringing off the hook like, yeah  
She hit me all the time

When you say yo then I say hey love  
You hit me with a sad face what I do?  
I hit you with a question mark  
You send me back a J slash K said I'm just playing with you

I got a clue how you feel for me  
One four three a smiley with a wink  
That's how you feel baby that's what's up  
A hundred forty characters is more than enough

She text me after school, she do it like it's homework  
Up in the salon, she do it like it's homework  
My girl's in love, I think I'm in love  
I wonder what she texted now

Me and my girlfriend, we go out every weekend  
We just two love-birds that's why we always tweetin'  
I tell her all my secrets she tell me all of hers  
When we get off the phone she says "No you hang up first"  
My girl is my universe I am so in love with her  
All the money in the world couldn't compare to what my shorty's worth  
They call me Double R for Mindless Behavior  
Oh it's my girl calling I'll holla at you later

[Repeat: x2]  
My girl, my girl she loves me
