

## Word

### Mindless Self Indulgence

I love the word allocate better than I love the word barrier. I  
kind of like the word gesture,

but not as much as I would enjoy the word vanished. I am not re  
ally into the word smiley, but

sometimes I feel sort of blue. When I hear the word conceived p  
eople ask me what does a command

of good english mean? And I answer It means you can express you  
rself clearly and easily without

fear of embarrassment or making mistakes. Good night, thank you.
