

Young Black And Constipated

Mindless Self Indulgence

Because I like it like that
I come from the world where there ain't nothin' like that
Come from a world depress, where there ain't no farts
I come from a world where takin' a shit is a luxury
This is a world you wish you was not in
This is a world where most of the people define themselves by the
shits they take
Try as you may
Always know only your world
Nevermind
Can never fully understand what it is that I speak of
'Cause understand things that I speak of are experiences that only
I commit
For all of my shit buried in
Like Thanksgiving, only messier
It ain't nothin'
Unlike you, I am constipated
