

## Fades

Mindy McCready

Every lost touch  
Every last tear  
Every cross love that brought me here  
Every broken piece of my past  
Every promise that just didn't last  
Every fall  
Every scar it...

Fades  
Melts away, breaks down  
Burns out, disappears in the light  
With you so beautiful how you make it all  
Fade

Every long road  
Every wrong turn  
Every bridge I was forced to burn  
It's just a shadowed, clouded memory  
Scattered moments with no hold on me  
But in the quiet, next to you it...

Fades  
Melts away, breaks down  
Burns out, disappears in the light  
With you so beautiful how you make it all

Fade into light  
Into ash  
Every breath  
Every second with you it all

Fades  
Melts away, breaks down  
Burns out, disappears in the light  
With you so beautiful how you make it all  
Fade

How you make it all fade
