

# Tumble And Roll

Mindy McCready

The one I love is knockin' at my door  
With a kinda look I never saw before  
He said "Hey baby, you and me,  
There's nothin' like knowin' when it's time to leave"

I took a lesson from his advice  
I thought about it once but I didn't twice  
Packed my life in a paper sack  
Don't miss nothin' I never had

This old car's our limosine  
Ridin' on hope, livin' on dreams

Don't wanna know nothin' 'bout readin' the map  
We're makin' it up as we go  
Final destination - don't look back  
'cause when you're shottin' the dice you just tumble and roll

If we ever get lost we can use the stars  
Right now we don't care where we are  
Spinnin' them wheels gonna get there yet  
We're runnin' down a road of no regrets

Got each other and that's enough  
Ain't we lucky, we got love

Don't wanna know nothin' 'bout readin' the map  
We're makin' it up as we go  
Final destination - don't look back  
'cause when you're shootin' the dice you just tumble and roll

Got each other and that's enough  
Ain't we lucky, we got love

Don't wanna know nothin' 'bout readin' the map  
We're makin' it up as we go  
Final destination - don't look back  
'cause when you're shootin' the dice you just tumble and roll

Tumble and roll  
Tumble and roll  
Tumble and roll
