

Walk In Glory

Mindy McCready

Come on out, come on out in the sunshine, baby
Come on out and trust yourself
Come on out, come on out in the sunshine, baby
And put your blues up on a shelf

I just wanna wrap my arms around you
But I would never hold you down
I been waitin' on the day I see you
Kick some dust up off the ground

And you step out of the shadows, yeah
You're gonna step out of the shadows
When you step out of the shadows
You're gonna walk in glory

Come on out, come on out of the darkness, baby
Show the beauty in your soul
Feel your heart, feel your heart pounding, yeah
Let the rhythm and the breath of life unfold

I just wanna wrap my arms around you
But I would never hold you back
Come on, c'mon, c'mon
You've got to cut yourself some slack

And you step out of the shadows
You step out of the shadows
When you step out of the shadows
You're gonna walk in glory

And all you really need is what you've got right now
Shine your light and tell your story
All God's children gonna walk in glory
Yeah, walk in glory

I'm just gonna wrap my arms around you
And I will never hold you back
Every little dream has got a string attached

And you step out of the shadows
You step out of the shadows
When you step out of the shadows
You're gonna walk in glory

C'mon, c'mon, c'mon now baby
Walk in glory
Ooh, ooh

I just wanna wrap my arms around you
But I will never hold you down
I been waitin' all day to see you
Kick some dust up off the ground

And you step out of the shadows
Gonna step out of the shadows
When you step out of the shadows
Gonna walk in glory

Yeah, yeah
Walk in glory
No, oh, oh, oh, oh
Walk in glory, ooh, ooh
Walk in glory, ooh, ooh
Walk in glory
