But what if I do Tištěno z www.txp.cz

I'm afraid we're moving a little to fast He think we're moving too slow (it figures) I'm sittin' here praying this movie Will last another hour or so He whispers he loves me He loves me so strong He wants to show me tonight (Yeah I'll bet he does) When two people have wanted each other So long you know it's only right (Yeah tonight) What if I do Will he love me more What if I don't Will he walk out the door I want to wait till I know it's true He thinks I won't But what if I do He's got my body a screaming screaming let's go He's got my mind all a mess The part of me that always says no Is losing to the part that says yes It's a test What if I do Will he love me more What if I don't Will he walk out the door I want to wait till I know it's true He thinks I won't But what if I do He says we'll be together From now until forever Is he being clever or what What if I do Will he love me more What if I don't Will he walk out the door I want to wait till I know it's true He thinks I won't He thinks I won't What if I do Will he love me more What if I don't Will he walk out the door I want to wait till I know it's true He thinks I won't But what if I do He thinks I won't
