

Edge Of Love

Mindy Smith

The edge of love like a knife
Shimmer shines when it hits the light
Just like that it'll change your life
And it makes time stand, it makes time stand still

The edge of love here I stare
Feels like sky whether it should be there
I wanna fly, wanna take your hand
And just let time stand, just let time stand still

The world is fine
Maybe I'm your leap of faith
I know it's right
'Cause you're my amazing grace
You make time stand still

The world is fine
Maybe I'm your leap of faith
I know it's right
You're my amazing grace
And you make time stand still

The edge of love, the only way
Just give it all for heaven's sake
And when we fall God will keep us safe
And that's when time stands, that's when time stands still
