

If I Didn't Know Any Better

Mindy Smith

I turned around before I could run
I found you already settled down in the back of my mind
And I know this is just a beautiful illusion
A case of the confusion between love and desire

Your heart is pullin', if I didn't know any better
I'd be fallin' deeper and deeper, it's true
I hear you callin', if I didn't know any better
And I'd be in love with you

Didn't want to look in the eyes of the one
That I would be drawn to, I'm a moth lost in a fire
And I know this is just a customary fever
The moon is our deceiver that will leave you running blind

Your heart is pullin', if I didn't know any better
I'd be fallin' deeper and deeper, it's true
I hear you callin', if I didn't know any better
And I'd be in love with you

When the flame burns out, finally settles down
And you forget I ever came around

Your heart is pullin', if I didn't know any better
I'd be fallin' deeper and deeper, it's true
I hear you callin', if I didn't know any better
And I'd be in love with you, yes I'd be in love with you
