

## It's Amazing

Mindy Smith

Baby doll, my baby doll  
You're just fine the way you are  
So what's the matter?  
Where's the problem?  
They don't love you  
'Cause they don't know you  
Like I do

Can you see  
It's amazing what you do to me  
Took my heart and made me feel things  
I never felt before  
It's changing me  
Which direction so certainly  
Shook me up and threw me around  
Helped me learn to breathe  
It all in

Tiger lily, my tiger lily  
You're just wild  
You're as wild as they come  
So what's the trouble?  
Where's the problem?  
You're just a growing beautiful someone

Can you see  
It's amazing what you do to me  
Took my heart and made me feel things  
I never felt before  
It's changing me  
Which direction so certainly  
Shook me up and threw me around  
Helped me learn to breathe  
It all in

When I was afraid to reach out  
Oh, when I was the one to run  
You came along with a new lease on love  
To show me how it's done

Can you see  
It's amazing what you do to me  
Took my heart and made me feel things  
I never felt before  
It's changing me  
Which direction so certainly  
Shook me up and threw me around  
Helped me learn to breathe  
It all in

Helped me learn to breathe it all in
