## It's Amazing

**Mindy Smith** 

Baby doll, my baby doll You're just fine the way you are So what's the matter? Where's the problem? They don't love you 'Cause they don't know you Like I do Can you see It's amazing what you do to me Took my heart and made me feel things I never felt before It's changing me Which direction so certainly Shook me up and threw me around Helped me learn to breathe It all in Tiger lily, my tiger lily You're just wild You're as wild as they come So what's the trouble? Where's the problem? You're just a growing beautiful someone Can you see It's amazing what you do to me Took my heart and made me feel things I never felt before It's changing me Which direction so certainly Shook me up and threw me around Helped me learn to breathe It all in When I was afraid to reach out Oh, when I was the one to run You came along with a new lease on love To show me how it's done Can you see It's amazing what you do to me Took my heart and made me feel things I never felt before It's changing me Which direction so certainly Shook me up and threw me around Helped me learn to breathe It all in Helped me learn to breathe it all in
