

Harry Potter is Dead

Ministry of Magic

Now we're falling into nothing
All the hope we've been on
A body lifeless before us on the ground, ground
Minerva is screaming
And all the children join in
No, Harry; no, Harry, no!

The Boy-Who-Lived is dead

Legend and triumph, people whispered your name
You were supposed to live forever, not get washed down the drain
Somebody tell me what the next move in this game
Because if the Boy-Who-Lived loses
Our fate, our fate is just the same"

Now we're falling into nothing
All the hope we've been on
A body lifeless before us on the ground, ground
Rubeus's sobbing, Neville's loosing his mind
No, Harry; no, Harry, no!

The Boy Who Lived is dead (2x)
We're burying him instead
The Boy Who Lived is dead (2x)
He's dead

Sometimes dreams live on long after your death
This chorus of young students with their wands to defend
'Dumbledore's Army,' then a cheer from his friends
We will gladly lose our lives to take this, take this to the end

Now we're falling into nothing
And we'll fight to our deaths
Sooner give up the ghost
You haven't beaten us yet
We may have lost our beloved hero
But we'll never lose hope
That evil will loose and only love remains
(only love remains x5)
Remains (3x)
