

Sonorus Love

Ministry of Magic

The cool night air
spirs our embrace
now I fell lost in time
and space
the moonlight shines
over the trees
In the Weasley yard,
just you and me tonight

She whispers, "I love you"
"There is no other"
I whisper but stutter
She smiles and draws me closer

I'm in love
I'm in love
I'm in love with a girl
named Hermione G
I'm in love
She loves me
I'm in love with girl
named Hermione G

We don't need
ashwinder eggs
cause our love will
never fade
When all the world is fast asleep
it's you and I just falling deep
tonight

She whispers, "I love you"
"There is no other"
I whisper but stutter
She kisses me...

I'm in love
I'm in love
I'm in love with a girl
named Hermione G
I'm in love
We were meant to be
I'm in love with a girl
named Hermione G

I have the emotional range of a teaspoon
I have the emotional range of a teaspoon
I have the emotional range of a teaspoon

I'm in love
I'm in love
I'm in love with a girl
named Hermione G
I'm in love
And she sets me free
I'm in love with a girl named Hermione Granger

And she sets me free
I'm in love with a girl named Hermione Granger
Hermine Granger
When all the world is fast
asleep
it's you and I just falling deep
