## **Come To My Garden**

## **Minnie Riperton**

Come to my garden let the stars fill your eyes Come to my garden and walk with me Come to my garden no more dreams filled with cries Come to my garden please

I'll take your hand and lead you from these bad times
I'll take your breath and give you mine
I'll take your hand and lead you where the truth lies
I'll take you with me now

You know you've lived here all your nights; all your days You know you've lived here inside my mind You know you'll stay here for this you've lived all your life You know you'll stay right here
