

Song Of Life

Minnie Riperton

La, la, la,
La, la, la, la, la, la...
Come sing the song of life
There's a song that sings to me
All of life's music in sweet harmony
And you can sing this melody
Once you just understand that you should be free
Young and old, we're all beautiful
We have learned that now is the time to let it show
Let your heart lead you
And you'll hear the song of life singing
Loud and clear everywhere, singing
Spread your feelings open wide
Let all the happiness you need inside
Feel the song begin to soar
You can do anything you want and more
So much more, so much more
Touch that star you've been reaching for
Take the chance that you've been afraid to take
Be bold... let your heart lead you
And you'll hear song of life singing loud and clear
Everywhere singing clear
