

Girl Of My Life

Mint Condition

All my friends think
That I'm living the life
Don't want it no more,
Keep it to you with the night.
All these frost parts
The time is waisted away.
Got these ?? main
Won't you show me the way.

But I'll never find her
The girl of my life!
That when one day
Will it be in my life.
Where you head? where you heading up?!
Where you at? where you heading up?!

Always fall for the wrong one
Face and body so nice.
But I need something deeper
That will stand the test of time.
I need a real woman
The rarest to fly
Just for travel, culture
And speaks to my mind.

But I'll never find her
The girl of my life!
That when one day
Will it be in my life.
Will I ever find her?
The girl of my life!
That when one day
Will it be in my life.
Where you head? where you heading up?!
Where you at? where you heading up?!

Know what you want
Know what you got girl
Don't play it games
That isn't right girl.
Know what you want
Know what you got girl
Don't play it games
That isn't right girl.
