Harmony

Mint Condition

Boy let's sing this sucka You wanna be alone

A joy to see you I'm so glad I'm here I come as a true friend So feel comfortable relax your fears

You've got no one And you know I've got nobody too Never been so much in tune With anyone in my life too

We just took our time To settle and unwind We innocently vibed Our hearts intensified, until

Silently, soulfully You've become a part of me Joyfully, melodically You and me in harmony

Did not expect, no To get a lover from a real friend You are so warm to me, when I'm around You won't melt like margarine

Oh girl you thrill me Oh, with your world please feel me Oh, lady you excited me Oh, won't you please invite me

We just took our time To settle and unwind We innocently vibed Our hearts intensified

Silently, soulfully You've become a part of me Joyfully, melodically You and me in harmony

Silently, soulfully You've become a part of me Joyfully, melodically You and me in harmony

You sang, a melody And naturally I ring, a harmony 'Cause lady I feel the real thang Can we be the main thang

Honey I wanna be your one man band Your piano man, may I tinkle your grand I tinkle you Silently, soulfully You've become a part of me Joyfully, melodically You and me in harmony

Silently, soulfully You creep into my life And now you Become a part of me baby

Silently, soulfully You've become a part of me Joyfully, melodically You and me in harmony

Silently, soulfully You've become a part of me Joyfully, melodically You and me in harmony

Silently, joyfully, silently
