

# Is This Pain Our Pleasure

Mint Condition

Sometimes relationships  
Sometimes they just don't work out  
You gotta do what you gotta do  
You know?

Damn  
We tried so hard to get it right  
But this relationship has been denied  
Between the sheets we thought that everything would be alright  
Talk  
That's something we both used to do  
But now you always got an attitude  
Don't know what we supposed to do, and I don't know what to say  
but

Is this pain or pleasure, cause all we do is fight  
Been so wrong for so long girl, that it's feeling right (2x)

I'm looking  
At you baby lookin' so good  
When any man sees you it's understood  
Why I would do the things I do, just to be with you  
Oh, I love you  
And then sometimes I feel that I can't stand you  
But I just can't bring myself to leave you  
And you keep pushing me away from you, and I don't know what to  
say

(2x)

Oh why, oh why, oh why  
Do we do what we do baby  
Oh why we fuss and fight  
Between me and you baby
