

## Moan

Mint Condition

I feel the heat emanating  
Flickering shadows frame your skin...  
Sensual aurora of your body  
Like sweet incense I breathe you in...  
Tracing paths of anticipation  
As you move my hand along your thigh  
Watchin your eyes casing my body  
Honey you know you got me high...

So bring it on girl  
And we can get it on girl...  
I'll do whatever I need to do lady  
To make you moan girl...  
Wanna hear you call my name  
Cause then I'll know girl...  
That I'm doin' it right for you honey  
When I hear you moan girl...

You know your so intoxicating  
Chemistry way off the charts...  
You got me jonesing for you honey  
The way you love me be a work of art...  
Awww Girl just let me put it to you  
Whatever you want that's alright...  
Be getting' it on like Kama Sutra  
And you know I know just what you like...

There ain't no need in us tryin' to shake it  
Girl you know just how we do...  
No more teasing, no more playin'  
Time for you to sing your song  
Moon to morning long
