Outta Time, Outta Mind

Mint Condition

You don't have an income
And you can't find the means
The world's just made you worry
You try to be happy
Afraid to heal your inward
And bills just later on
It's a world of contradiction
Try to be real strong

Out of time, out of mind
Drivin' me crazy
Out of time, out of mind
The world is shady and hazy
Out of time, out of mind
It's drivin' me crazy
Out of time, out of mind
The world is shady and hazy

With you, just for today
Tomorrow's not guaranteed
So make it count for something
We'll Join it and feel
Sometimes it feels so good
And that's how it should be
Everybody's not crazy
Lazy (oh yeah)

(2x)

(We're living in a world of speed)
We're living in a world of speed
(We're living in a world of greed)
Selfishness is part of the system

(2x)
