

Menace

Minuit

looked into your smile
and my heart did something drastic
you're not the one
but I think you're fantastic
my head has thoughts
that will remain unspoken
I think my hearts really broken
I think my hearts really broke
I would not fear death
if I could take you with me
I don't believe in anything that I see
Except bits of you and possibly bits of me
this chaos has consistency
you're a menace,
to the female sex,
you're a menace, baby
this chaos has consistency,
but I think you're fantastic
