

Milk

Minuit

you are the darkest side of money i have ever seen yet

the game was one of mettle now it's turned into one of death

you are the darkest, the darkest i have ever seen yet

intruders in your mind

working you over time

a movement to your right

incoming at head height

you are the darkest side of money i have ever seen yet

the game was one of mettle now it's turned into one of death

you're hearing noises there is someone standing at your door

i'll tell you now you better hope it isn't me

lies, and statistics

they're chopping the globe to bits

your business and industry

are terrible company

i'll throw you to

i'll throw you to

i'll throw you to...the elements
