

Cold Company

Minus the Bear

Feel your hand on the rock
Roll the rock up the hill
What did you do to deserve this hill
When you get to the top
Watch it roll down again
Are you pushing up the sun
And dragging down the moon?
Did you think it wet
When she came after you?

Keep your hand on the rock
It will finish you if you stop
Cold, cold company
Forgive me
This ain't my stone
This ain't my stone the rock
Skin on my hand can't take it anymore

Feel her hands on your back
Feel the world go black
No future and no past
Here, now, alive at last
Feel your hand on the rock
Roll the rock up the hill
If I slip into this dream
When I awake it's the same

Keep your hands on the rock
It will finish you if you stop
Cold, cold company
Forgive me
You saved my stone
You saved my stone the rock
My aching feet can't stand it anymore

Life's goes on and on
Outside in the cold
Inside the barber waits
Waits his turn

Cold, cold company
Forgive me
This ain't my stone
This ain't my stone the rock
My aching feet can't stand it anymore

Cold, cold company
Forgive me
This ain't my
This ain't my stone the rock
Skin on my hand can't take it anymore
