

Dayglow Vista Rd.

Minus the Bear

Walking down Dayglow Vista Road
Taking a break to read the stone
Sunken grave seem to say we're not here anymore
It's like they never been here before

And everybody's got a shine on
Walking down Dayglow Vista Road
And everybody's got a high on
Down by the old path ghost

Looks so sweet, so sweet, so sweet
The sunlight filtered down on me
I'm under your thumb, I'm under your thumb
Don't want to get stuck when the storm comes

And everybody's got a shine on
Walking down Dayglow Vista Road
And everybody's got a high on
Down by the old path ghost

What's a little bit of rain

As we walk on it comes on night
And the pathway fades away
Lost in the forest graveyard
And we're tripping the night away

Everybody's got a shine on
Walking down Dayglow Vista Road
And everybody's got a high on
Walking down Dayglow Vista Road
And everybody's got a shine on

Down by the, down by the, down by the, down by the
Everybody's got a shine on
