

# Electric Rainbow

Minus the Bear

What did you do?  
What did you do?  
You've got some heat on you  
You've got some heat on you

They've been tracing all your moves  
Your mark has made you his  
And if you want to live  
Let me suggest this:  
Get a gun and get a car  
Get on the 25 south to Mexico  
Find some place and lay low, just lay low

I just need to check the score  
Cause girl, you got to move

Oh, stay lonely, stay quiet  
Stay, you'll keep breathin' air

How did it go so wrong so fast?  
The confidence and then a money grab  
Simple enough, simple enough a plan  
It all went to shit, you're on the run  
At least you've got the cash  
At least you've got the cash

Oh, stay lonely, stay quiet  
Stay, you'll keep breathin' air  
Oh, stay lonely, stay quiet  
Stay, you'll keep breathin' air

Air  
You'll keep breathin'

The road in front of  
Our protagonist  
Runs in

Then you'll sleep, this dough  
Under pillow  
Again  
Again

Don't bring no lights on you

What did you do?  
What did you do?  
You've got some heat on you  
You've got some heat on you  
They've been tracing all your moves

What did you do?  
What did you do?  
You've got some heat on you  
You've got some heat on you  
What did you do?  
What did you do?
