

Excuses

Minus the Bear

Coins I could drop
Shake in my pocket
They shake like you do

Steps that you take
Bend and they break
They break like I do

Running out of excuses
When we know what the truth is
I'm into you, I'm into you

When you hear this song
You'll say you knew all along
You're into me too, you're into me too

The vibe you send
Sets me out my end
Do you get my vibe too

You held me on for so long
With what's a lie
And what is true

Running out of excuses
When we know what the truth is
I'm into you, I'm into you

When you hear this song
You'll say you knew all along
You're into me too

Running out of excuses
When you know what the truth is
I'm into you, I'm into you

When you hear this song (You here this song)
You'll say you knew all along (Say you knew all along)
You're into me too, you're into me too

Black and white dress
Puts me into a trance
As I memorize you

First game of chance
Ends in a loss
I just lose it to you

Running out of excuses
When you know what the truth is
I'm into you, I'm into you

When you hear this song (You here this song)
You'll say you knew all along (Say you knew all along)
You're into me too, you're into me too
