

Get Me Naked 2: Electric Boogaloo

Minus the Bear

Try to get some rest
Count backwards from ten

You've gone too long without sleep
I know you won't rest stressed
So give up, just give up

And don't say no to pills
Ativan won't kill

You said, "My life's like a bad movie"

And I said, "It's true of all us"

You said, and you said, "I gotta wake up so fucking early"

And I said, "Maybe the director's turned on us"

Outside the five sounds like the ocean
Relax, don't keep your eyes open

Don't look at the clock
Your brain will never stop

You said, "My life's like a bad movie"

And I said, "It's true of all us"

You said, and you said, "I gotta wake up so fucking early"

And I said, "Maybe the director's turned on us"

Don't say no to pills
Ativin won't kill
