

Invented Memory

Minus the Bear

Do you remember when we were young
Yesterday, yesterday?
Time is a song in memory
That is to say, that is to say
Nothing's really going on
It's just movement in space
Reactions from one to another
In faded memory

Throw all the clocks out
Tell time by touch
Feel it fall through your fingers as it rains down on us

Do you remember our fight against love?
In defeat you waived a flag
Surrendered to sweet uncertainty
Reactions from you to me
Invented memory

Throw all the clocks out
Tell time by touch
Feel it fall through your fingers as it rains down on us

Do you remember when we were young
Yesterday, yesterday?

Throw all the clocks out
Tell time by touch
Feel it fall through your fingers as it rains down on us

Throw all the clocks out
Tell time by touch
Feel it fall through your fingers as it rains down on us

Raining down on us
Rain down
Raining down on us
Rain down
