

# Monkey!!! Knife!!! Fight!!!

Minus the Bear

"It's getting late"  
She said  
She touched my face  
"Let's stay out as late as we can"

We'll drive around the lake  
Just a little too fast  
My eyes on the lights, her hand on my shoulder  
Yeah, windows down the wine  
In our hands  
The city lights just blur  
The city lights just blur

Let's go out  
On a dock  
We'll bring a bottle and blanket  
And everything  
Yeah everything  
Everything is going our way  
Is going our way

We'll drive around the lake  
Just a little too fast  
My eyes on the lights, her hand on my shoulder  
Yeah, windows down the wine  
In our heads  
The city lights just blur  
Yeah, the city lights just blur

Lean in to me (14x)
