

Monkey!!! Knife!!! Fight!!!

Minus the Bear

"It's getting late"
She said
She touched my face
"Let's stay out as late as we can"

We'll drive around the lake
Just a little too fast
My eyes on the lights, her hand on my shoulder
Yeah, windows down the wine
In our hands
The city lights just blur
The city lights just blur

Let's go out
On a dock
We'll bring a bottle and blanket
And everything
Yeah everything
Everything is going our way
Is going our way

We'll drive around the lake
Just a little too fast
My eyes on the lights, her hand on my shoulder
Yeah, windows down the wine
In our heads
The city lights just blur
Yeah, the city lights just blur

Lean in to me (14x)
