

Robotic Heart

Minus the Bear

Thought that I could see the world was in my hands
That is all in time its falling through the cracks
Took the call the words are traveling too fast
Suddenly record and ready to attack

Don't release the animal
Hide your cards
Just keep acting natural
Play the part
Don't believe the agony
Just restart
Change out the batteries
Robotic heart

Turn the static off the noise is getting through
No expression left searching for my youth
Automatic pilot hiding from the truth
Take the blade to cut before it comes loose

Don't release the animal
Hide your cards
Keep it cool and casual
Play the part
Don't believe the agony
Just restart
Change out the batteries
Robotic heart

I got buzzin' in my head (stare at the ceiling)
Robotic heart
I got buzzin' in my head (stare at the ceiling)
Robotic heart
(Robotic heart)

Don't release the animal
Hide your cards
Just keep acting natural
Play the part
Don't believe the agony
Just restart
Change out the batteries
