

# Surf n Turf

Minus the Bear

Right in front of me  
Splitting you from me  
Where do these cliffs come from  
They keep on lining up

Can you hold out your hand  
just a little bit further  
I can feel your finger tips  
if I just reach out a bit

Right in front of me  
Splitting you from me  
Where do these cliffs come from  
They keep on lining up

Save me from myself  
Save us from all the rest  
Don't rest till you've saved enough  
then you know you've passed the test

The wind is moving you further, further  
So soft on the cheek  
The wind is moving you further, further

Right in front of me  
Cutting you off from me  
Where do these cliffs come from  
They keep on lining up

Can you break all the rules?  
Leave the cliff for the sea  
let the surf carry us  
where it wants us to be

The wind is moving you further, further  
So soft on the cheek  
The wind is moving you further, further

The wind is moving you further, further  
So soft on the cheek  
The wind is moving you further, further

Right in front of me  
Splitting you from me  
Where do these cliffs come from  
They keep on lining up

Can you hold out your hand  
just a little bit further  
I can feel your finger tips  
if I just reach out a bit
