

## The Fix

Minus the Bear

A swimming pool with no bodies  
Is a problem that we can fix  
He dropped his clothes on me  
Chase lounge and asked  
"Are you gonna come in?"  
And in the night, the only light  
Was the glow of the surface  
As we slid in  
The rest of them  
Continue their talking  
And drinking  
They'll never notice us

So this is the difference between  
Living and not living  
These are just bodies  
We have a purpose  
And the gravity  
Pulling us from them to we

The distance between our bodies  
Is a problem that we can fix  
They moved slow through the current  
And found their bodies touching  
Their heads to pull reminder  
For some kind of kiss  
As he slides in  
The rest of them  
Continue their talking  
And drinking

So this is the difference between  
Living and not living  
These are just bodies  
We have a purpose  
And the gravity  
Pulling us from them to we (2x)
