

You know you're frightened  
Because it's your time  
A void, a blank  
In your mind

Reserved for 99  
You knew it would be there  
Reserved for 99  
You knew it would be there

But you explain  
"I think I found it,  
I feel the same,  
But I feel much better"  
If we could make my own grave  
And whose future is it anyway?
