

# Evacuate

## Miracle Of Sound

Good friends will part sometimes  
That's just the way it goes  
Don't waste your life  
Banging on doors that have been closed

Sometimes the ones you trust the most  
Will let you down  
Life doesn't hold back  
When it's kicking you around

You've lived a little, loved a little  
Tasted bitter heartache  
You've got to just forget the ones who hurt you  
For your own sake

If they can't see it your way  
Walk through that open doorway  
Before your sadness turns to hate...

Evacuate o-o-oh o-oh!  
Evacuate o-o-oh o-oh!  
Evacuate o-o-oh o-oh!  
Don't let it get you down!

The world is such a scary place  
When you're alone  
You're on an empty stage  
You got no microphone

But don't you hide behind the curtains  
In the wings  
Step out into the lights and  
Let 'em hear you sing

You've laughed a little, cried a little  
Now you know the dangers  
You've seen so many faces once familiar  
Turn to strangers

If they can't see it your way  
Walk through that open doorway  
Before your sadness turns to hate...

Evacuate o-o-oh o-oh!  
Evacuate o-o-oh o-oh!  
Evacuate o-o-oh o-oh!  
Don't let it get you down!

Please don't let it shut you out  
There is always more...

If they can't see it your way  
Walk through that open doorway  
Before your sadness turns to hate...

(Evacuate o-o-oh o-oh)  
Good friends will part sometimes now

(Evacuate o-o-oh o-oh)  
Good friends will part sometimes now  
(Evacuate o-o-oh o-oh)  
Before your sadness turns to hate...
