Hell In The Headspace

Miracle Of Sound

Cleave through the casing
Carve to the core
Burn out the virus
Strip out the spore

Contaminated
There's nothing pure
Reanimated
I am the cure

Break out your kill cutter
Hell in the headspace
Insanity it always finds me
Keep running but it's right behind me

There is no gravity
But I have somehow fallen so far
Dead spaces inside me
My ghosts will haunt the farthest of stars

Hell in the headspace
Hallucinate
Flesh of a dead race
Eviscerate

Dead metal hallways
Pervert the tools
You know they'll always
Subvert the rules

Break out your kill cutter
Hell in the headspace
Insanity it always finds me
Keep running but it's right behind me

There is no gravity
But I have somehow fallen so far
Dead spaces inside me
My ghosts will haunt the farthest of stars

It took so long to realise
Rip off the blindfold from my eyes
A thousand screams I will endure
I am the cure

I AM THE CURE

Break out your kill cutter
Hell in the headspace
Insanity will alway finds me
Keep running but it's right behind me
