

# Keep Drifting

Miracle Of Sound

Keep drifting  
Thieves drifting  
Keep drifting

In the silence of the desert  
In the bellows of the sea  
In the places never wandered  
There are many secrets there to see  
Fortunes in the shrouds of history

I've walked the hidden hallways  
I've braved the bleakest cold  
I have spent a lifetime  
Hunting for the stories long untold  
Something undiscovered to behold

Wisdom starts to drown  
This ship is going down

Blood on my hands  
Stumble through uncharted lands  
Lady Luck is on my side  
As I swim against the tide

Keep drifting  
Thieves drifting  
Sands of fate keep shifting  
And I will never stop or turn away  
Further into danger I will stray

Coincidence has always been a friend to me  
I always seem to wind up where I'm meant to be

Through furious infernos  
Dead whales of rotting rust  
No hurdle is too high for  
A man who simply knows how to adjust  
Into the hands of chance I put my trust

Blood on my hands  
Stumble through uncharted lands  
Lady Luck is on my side  
As I swim against the tide

Keep drifting  
Thieves drifting  
Sands of fate keep shifting  
And I will never stop or turn away  
Further into danger I will stray
