

Little Sister

Miracle Of Sound

Woke up in a tin can don't remember my name
Don't know how I got here or from where I came

My mind is an ocean, dark and clouded and deep
Under fathoms of blankness liquid secrets I keep

This child is my saviour, my reason to be
Underneath all my crashing waves she's safe in this sea

A lumbering hulk aside a delicate flower
A gentle leviathan of terrible power

And I dream of the sea
Broken machinery
And I dream of the sea
There's no rapture for me

I walk through the water with my only friend
We search for dead angels, on each other depend

I'll follow her lead now wherever she'll go
Little sister, you're all that I know
Little sister, you're all that I know

And I dream of the sea
Broken machinery
And I dream of the sea
There's no rapture for me
(walk through the water with my only friend
Search for dead angels on each other depend)

Little sister, you're all that I know
