

The Best I Can

Miracle Of Sound

Sunshine
Fading from your stare
Sometimes
It's better not to care

And I can see your smile is withered
One more autumn leaf is drifting on the wind

Innocence is wasted
And I'm so sorry that you never can replace it
The darkest road ahead you're gonna have to face it
Cause I can't always be there
For now I'll do the best I...

Can you
Feel it on the wind?
Changes
Weakened from within

And I can take your hand and guide you
But hope is all that I can leave you on your way

Innocence is wasted
And I'm so sorry that you never can replace it
The darkest road ahead you're gonna have to face it
Cause I can't always be there...

For now I'll do the best I can
Static on a broken radio

Down into the jaws of fate we go
Innocence is wasted
And I'm so sorry that you never can replace it
The darkest road ahead you're gonna have to face it
Cause I can't always be there...
