

The Best Of Us

Miracle Of Sound

Strangers
Broken hands align
Drift on the frozen face of time

Unlikely guide
I will follow you

Move like a shadow
Deadly deprivation
Move like a shadow
Cost of survival

What would you give of yourself to stay steadfast
Could you shed all of the ethics of your past
What would you give of yourself to be
The best of us at last

Two still hands
A fragile, faded photograph
I walk in the shadow of
The missing half
