

Education

Mirah

And I received an education all the while
I've come to an understanding
When you say you love me sometimes
That's all you can give

Love might just be an economy
But I don't believe in property
We don't own nothing
We don't owe nothing

And you wondered why I was so terrified
The night of our proclamation
Now do you understand
The risk we'd undertaken
Was a deer running free
'Til its last breath found your window
We killed and drove on indecently
Oh how you screamed

But I'll never change
You'll never change
