All Kinds of Wrong

Miranda Cosgrove

Just woke up, it's day ten
It still hurts like back then,
Tears like rain flood my bed,
Can't erase what I did

This is what I get for telling you I don't need you around, what a lie And this is what I get for thinking there was ever someone better in my life

[Chorus]

And it's all kinds of wrong without you,
I can't breathe when you're gone Don't know what to do
Now, the best of me
is lost in a memory
and it's all kinds of wrong
without you

If I had one more try no more games, no more lies, Missing you is a lonely ride, Feel more dead than alive

This is what I get for telling you to pack your things and just get out A-A-And this is what I get for pushing you away, now no one's gonna bail me out

[Chorus]

Want you back by my side, I want back what was right, I know I should be strong, time for me to move on, but this all feels so wrong

[Chorus]

Now, the best of me is lost in a memory and it's all kinds of wrong without you
