

BAM

Miranda Cosgrove

1. Never thought I'd fall in love
Now I stand corrected
Never thought I'd feel what I feel
Never been so affected
Now I know what I know but right now
It seems so subjective, oh oh

X: You surprised me, hypnotized me
Found my weakness, then you creeped in
To my heart then, oh you started
To make my whole world just explode

R: Bam, my life has changed
Bam, can't concentrate
Bam, I was okay
Until we met that day then
Bam, I am obsessed
Bam, can't get no rest
Bam, ever since we met
I think I know what love is, bam

2. I felt so secure
With these walls around me
Boys will take me out
But bring me back where they found me
And there's no harm, no foul
Cause they never got a chance to know me, yea yea

X: You surprised me...

R: Bam, my life has changed...

*: And if I had to walk a million miles
To find your smile, I would
You know I would, babe
And if you took a trip to Costa Rica
And told me to meet ya, I would
I would I would, yea yea yea

R: Bam, my life has changed...

X: You surprised me...
