

## Million Dollars

Miranda Cosgrove

Singing you were my million dollars  
Singing you were my million dollars

I don't think I believe in love  
And I don't need the place where I grew up  
Slipping by, finally got mixed up  
Cause being me, it just ain't good enough

I'm gonna fight against the system  
And question my decisions  
After everything I've given, with no return

Singing you were my million dollars  
Singing you were my million dollars  
Cause I'm down on the floor  
Even though that I've been here before  
Singing you were my million dollars

Sometimes I just don't understand  
If faith is real, then why don't we lose our friends  
It's how I feel, no I just can't pretend  
And now I'll do anything for the win

I think I'm gonna break tradition  
Go out and burn some bridges  
After everything I've given with no return

Singing you were my million dollars  
Singing you were my million dollars  
Cause I'm down on the floor  
Even though that I've been here before  
Singing you were my million dollars

Singing you were my million dollars  
Singing you were my million dollars  
Cause I'm down on the floor  
Even though that I've been here before  
Singing you were my million dollars  
Singing you were my million dollars  
Singing you were my million dollars

I don't think I believe in love  
Cause being me, just ain't good enough
