

Party Girl

Miranda Cosgrove

1. Quarter past five and it feels
like another dimension
Everybody knows that
we're going out tonight
Somebody says no and
thats when I remember to mention
Were gonna party
party like its 1999

X: Chordless
So pick me up lets go
Go far away from home
It doesnt matter where
cause baby I just wanna Rome
Were putting on a show
Varieties and vogue
Lets do it Lets do it
Lets do it

R: You can take the
darkness out of the night
You can take the
tick tock out of time
Go and take the
angry out of the world
But you can't take the party
You can make a rocket
blast into space
You can make the earth
into a better place
Go and give me diamonds
rubies and pearls
But you can't take the party
out of the girl

But you can't take the party
out of the girl

2. Paris in the spring and
New York in the middle of summer
I dont care where we go
as long as everyone is there
And if it feels slow we
dance till it sounds like thunder
And when the ground starts shaking
thats when you know you better beware

X: Chordless...

R: You can take the...

*: Take me away from
the bad day
I just wanna play

R: You can take the...

But you can't take the party
out of the girl
But you can't take the party
out of the girl
But you can't take the party
